Package Guide 2018

WELCOME

Hey there!

Thank you for considering me as your photographer! I'm Michelle, and I love shooting weddings. So much so that I've been doing it for almost 8 years! I come jam packed with experience and helpful ways to make your wedding day photography easy and seamless, and to make you feel like naturals in front of the camera. I have tricks up my sleeves even for the most nervous of couples!

I am delighted that you resonate with my work enough to contact me. That is the biggest step in the right direction - knowing what style you like! The rest is easy peezy - we meet (or skype), we get to know each other a little, we discuss the package options and we see how we viber!

I want this process to be easy on you so you can be relaxed and excited for your big day.

 @magnoliastudios

I am a total beach girl at heart, so when I am not shooting weddings or taking creative portraits you will likely find me at a beach, a cottage or on a sunny patio downtown. I am always planning my next trip or coming up with creative shoot ideas. I love personal style, colour, design, textures, patterns, and the infinite ways that we can use them to create and inspire.

I enjoy yoga, tennis, anything outdoors, and I'm inspired by the beauty of nature. I also love the big city and attend art shows, expo's and festivals as much as I can. I am a creative soul with an inquisitive nature, who is in love with synchronistic connections. Photography brings so much joy to others, even through generations - what a powerful thing! That is the overall goal of every shoot.
